infoLock Technologies Partners with SAINT Corporation to Offer Network Vulnerability Assessment and Penetration Testing

Arlington, Virginia (April 15, 2010) Leading data lifecycle security firm infoLock Technologies (ILT) is proud to partner with SAINT Corporation, the global leader in vulnerability assessment and penetration testing, to help organizations across all industries proactively assess and protect their networks. Since 2007, infoLock Technologies has delivered SAINT Corporation's award-winning Network Vulnerability Assessment and Penetration Testing services to its customers as a SAINT Corporation Consulting Partner and Certified Reseller.

With SAINT's best-of-breed solutions at its disposal, infoLock Technologies is able to help organizations develop a clear understanding of the scope and degree of network exposure, prioritize identified threats, and create an effective remediation strategy based on available resources. A Network Vulnerability Assessment from ILT and SAINT can also help companies demonstrate compliance with current government regulations, such as SOX, FISMA, GLBA, HIPAA, and the HITECH Act, as well as industry regulations such as PCI DSS.

"SAINT Corporation is the clear industry leader in vulnerability assessment and penetration testing," said Chris Wargo, infoLock Technologies' President. "We strive to provide our customers with the best solutions on the market and SAINT has proven over and over why its products stand out from the rest."

"infoLock Technologies is a solid partner for SAINT Corporation," said Billy Austin, SAINT Chief Security Officer. "Their commitment to excellence, innovation, and providing world-class services and solutions mirrors that of our own and we look forward to many years of continued collaboration."

About infoLock Technologies

infoLock Technologies (ILT) is a recognized leader in data lifecycle security. Combining technical expertise with business savvy, ILT provides a range of solutions to help its customers — from financial services companies to healthcare organizations to government agencies — secure their sensitive data. Clients include the U.S. Navy, Sharp Electronics, Highmark Blue Cross Blue Shield, Education Management Corporation, and the North Carolina Department of Health & Human Services. Founded in 2005, ILT is a privately-owned company headquartered in Arlington, Virginia. For more information, visit <http://www.infolocktech.com>.
