infoLock Technologies Achieves Symantec Gold Channel Partner Status

Arlington, Virginia (March 18, 2010)--Today, infoLock Technologies (ILT), a leading data lifecycle security firm, announced that it has become a Symantec Gold Channel Partner based on its expertise in delivering Symantec solutions with a high measurable level of customer satisfaction. Previously, ILT had been a Symantec Channel Partner at the Silver level.

As a Symantec Gold Channel Partner, infoLock Technologies will enjoy enhanced benefits plus access to internal Symantec resources complementing the wealth of available sales and marketing information, tools, and support. With an experienced staff of certified and accredited security professionals, infoLock Technologies has helped organizations across all industry verticals discover, classify, and protect their sensitive data.

infoLock Technologies has also recently achieved Symantec's Data Loss Prevention (DLP) Specialization for its demonstrated expertise in delivering Symantec DLP solutions.

"We are pleased to now be a Symantec Gold Partner and excited about the opportunities our partnership brings with it," said Chris Wargo, co-founder and President of infoLock Technologies. "Symantec's commitment to innovation and customer satisfaction mirrors that of our own and we look forward to working together in support of our common goals."

About infoLock Technologies

infoLock Technologies (ILT) is a recognized leader in data lifecycle security. Combining technical expertise with business savvy, ILT provides a range of solutions to help its customers—from financial services companies to healthcare organizations to government agencies—secure their sensitive data. Clients include the U.S. Navy, Sharp Electronics, Highmark Blue Cross Blue Shield, Education Management Corporation, and the North Carolina Department of Health & Human Services. Founded in 2005, ILT is a privately-owned company headquartered in Arlington, Virginia. For more information, visit <http://www.infolocktech.com>.
